Information for Authors

Original manuscripts will be considered for publication with the understanding that they are contributed solely to THE AMERICAN JOURNAL OF DIGESTIVE DISEASES. Address manuscripts to JOHN T. FARRAR, MD, Department of Medicine, Medical College of Virginia, Virginia Commonwealth University, Richmond, Virginia 23298.

Type manuscripts double-spaced on regular typewriter paper, using 1 1/2-inch margins. Submit the original and one copy. On the first page give the title of the article, name(s) of author(s), degrees, source of the work or study, acknowledgments of support or sponsorship, address for reprint requests, and suggested running head. The running head should not exceed 35 letters, including spaces. Personal acknowledgments should be given in a separate section at the end of the article. Number pages consecutively and type author's last name on each page. An abstract of 150 words or less must accompany each original article except for reports of single cases. The abstract will appear at the beginning of the article and should include the purpose, results, and conclusions. In most instances, a summary will be rendered unnecessary by the presence of the abstract. A longer summary will be accepted when it is justified.

In *references* include, in this order: author(s) last name(s), then initials (please list *all* authors), title of article, journal name (*Index Medicus* abbreviations), volume, inclusive pages, and year published, e.g., Webster PD, Black O, Morisset JA: Effect of bethanechol chloride on protein synthesis in rat pancreas. *Am J Dig Dis* 19:167-173, 1974. The format for books: Broder LE, Carter SK: Meningeal Leukemia. New York, Plenum Press, 1972, pp 1-35. Contribution to a book: Grenell RG: Effects of alcohol on the neuron. *The Biology of Alcoholism*, Vol. 2. B Kissin, H Begleiter (eds). New York, Plenum Press, 1972, pp 1-17. Type references double-spaced on a separate sheet (or sheets) of paper and number consecutively in the order in which each is cited in the text.

Type each *table* and its title on a separate sheet of paper.

For *illustrations* submit unmounted black-ink drawings of professional quality or glossy photographs, also unmounted. Reproductions should be clear, with sharp contrast, especially where fine lines such as those of grids or traces are to be retained. On back of illustration give number, author's name, and indication of "top" where not otherwise clear. To avoid damaging emulsion of photographs, write lightly, preferably with soft pencil. (A reasonable cost allowance is made for illustration reproduction or tabular composition; where this is exceeded special arrangements must be made.) Submit all illustrations in duplicate.

Supply a *caption* for each illustration; group captions in consecutive order on one sheet of paper, if possible.

Reprints may be ordered using the reprint order form which accompanies proofs, and they should be ordered prior to publication. Postpublication orders cannot be filled at regular reprint rates.

General Information

THE AMERICAN JOURNAL OF DIGESTIVE DISEASES, issued monthly in one indexed volume per year, is published by PLENUM PUBLISHING CORPORATION, 227 West 17th Street, New York, N.Y. 10011. Telephone (212) 255-0713.

Subscriptions should be addressed to the publisher and are payable in advance.
